Business Leader in Business Excellence

In today's Business Services sector, the ability of our companies to continuously improve operational capabilities and financial performance lays at the heart of our business.

This category seeks to recognise the projects that not only brought the highest productivity, significant improvement in results and contributed to achieving business excellence through enhanced process quality, reduction of operational costs and therefore overall contribution to the enterprise, but also adapted to the changing environment that the pandemic brought. We look at projects driven either through **continuous improvement, innovation or business process re-engineering**.

NOMINATION CRITERIA:
