# Business Leader in Business Excellence

In today's Business Services sector, the ability of our companies to continuously improve operational capabilities and financial performance lays at the heart of our business.

This category seeks to recognise the projects that brought the highest productivity, significant improvement in results and contributed to achieving business excellence through enhanced process quality, reduction of operational costs and therefore overall contribution to the enterprise. We look at projects driven either through **continuous improvement, innovation or business process re-engineering**.

All the fields below are to be fully completed as requested. During the evaluation process the jury takes into account and rates concrete information, i.e. data, demonstrated facts, business logic, along with the following Criteria:

EVALUATION CRITERIA:	»	Timeline of the project	»	Operational improvements & cost savings
	»	Project goal & scope	»	Process streamlining/replication
	»	Original approach to process management	»	Recognition of the project
