Business Leader in Business Innovation

Over the last few years, the Business Services sector has moved from transactional and fairly simple operations to more advanced, complex and even automated activities and processes.

This category focuses on rewarding the development of innovative, out-of-the-box solutions or the successful delivery of complex or advanced services. Either of them should be considered means to further enhancement of business services capabilities. Your success story needs to demonstrate how your organization gained competitive advantage or improved its performance due to implementation of the innovative solution.

All the fields below are to be fully completed as requested. During the evaluation process the jury takes into account and rates concrete information, i.e. data, demonstrated facts, business logic, along with the following Criteria:

EVALUATION CRITERIA:	» Timeline of the project	» Innovativeness
	» Project goal of the innovative solution	» Recognition of the solution
	» Impact for the company and the business	

Person nominates the project and could offer more details if asked by the the organizers.
